

What is claimed is:

1. A method for networking an online apparel purchasing and an offline apparel cleaning, comprising the steps of:

a) establishing a merchant website administered by an

5 online merchant, wherein the merchant website enables an online shopper to make an online purchase;

b) said online shopper ordering one or more apparels from the merchant website;

10 c) said online merchant dispatching the ordered apparels to a cleaner;

d) said cleaner pressing the apparels dispatched from the online merchant; and

15 e) said cleaner dispatching the pressed apparels to the online shopper.

2. The method of claim 1, wherein the merchant website includes a selectable apparel list, a selectable cleaner list, and a payment determiner.

20

3. The method of claim 2, wherein the payment determiner cryptographically determines a credit card payment.

4. The method of claim 1, wherein the step b) comprises
substeps of:

a) said online shopper choosing one or more apparels
for purchase and selecting a cleaner for pressing
5 the chosen apparels, respectively from the
merchant website; and

b) said online shopper making an online payment for
10 the chosen apparels and for the apparels cleaning
at the selected cleaner, respectively from the
merchant website.

5. The method of claim 1, further comprising, after the
15 step e), a step of said cleaner receiving a cleaning
charge from the online shopper.

6. The method of claim 1, further comprising, after the
step e), the steps of:

20 a) said cleaner sending to the online merchant a
confirmation of the pressed apparel receipt by the
online shopper; and
b) said online merchant crediting a cleaning charge
to an account of the apparel cleaner.

7. The method of claim 1, wherein the step d) comprises substeps of:

- a) washing the apparels from the online merchant;
- b) drying the washed apparels; and
- 5 c) ironing the dried apparels.

8. The method of claim 7, further comprising a step of bagging the ironed apparels either on hanger or in box.

10 9. The method of claim 1, wherein the dispatching of the pressed apparels to the online shopper is implemented either by the cleaner's delivery or by the online shopper's pickup.

15 10. A method for networking an online purchasing and an offline cleaning, comprising the steps of:

- a) establishing a first website administered by an online linker and a second website administered by an online merchant, wherein the first website is connected to the second website by a click-through link, wherein the second website is an online store selling apparels;
- 20 b) directing an online shopper from the first website to the second website in accordance with the click-through link;
- 25

- c) said online merchant dispatching one or more
apparels ordered through the second website by the
online shopper to a cleaner;
- d) said cleaner pressing the apparels from the online
5 merchant; and
- e) said cleaner dispatching the pressed apparels to
the online shopper.

11. The method of claim 10, wherein the second website
10 includes a selectable apparel list, a selectable cleaner
list, and a payment determiner.

12. The method of claim 11, wherein the payment
determiner cryptographically determines a credit card
15 payment.

13. The method of claim 10, further comprising, between
the step b) and the step c), the steps of:

a) said online shopper choosing one or more apparels
20 for purchase and selecting a cleaner for pressing
the chosen apparels, respectively from the second
website; and

b) said online shopper making an online payment for
the chosen apparels and for the apparels cleaning

at the selected cleaner, respectively from the
second website.

14. The method of claim 10, wherein the step d)

5 comprises substeps of:

- a) washing the apparels from the online merchant;
- b) drying the washed apparels; and
- c) ironing the dried apparels.

10 15. The method of claim 14, further comprising a step of
bagging the ironed apparels either on hanger or in box.

16. The method of claim 10, further comprising, after
the step e), a step of said cleaner receiving a cleaning
15 charge from the online shopper.

17. The method of claim 10, further comprising, after
the step e), the steps of:

- a) said cleaner sending to the online merchant a
20 confirmation of the pressed apparel receipt by the
online shopper;
- b) said online merchant crediting a cleaning charge
to an account of the cleaner; and

c) said online merchant crediting a commission to an account of the online linker upon the confirmation receipt.

5 18. The method of claim 10, wherein the dispatching of the pressed apparels to the online shopper is implemented either by the cleaner's delivery or by the online shopper's pickup.

10 19. A method for networking an apparel purchasing with an apparel cleaning by use of a merchant server, a cleaner server, and a merchant agent server, comprising the steps of:

15 a) establishing an online merchant module in the merchant server, an online cleaner module in the cleaner server, and a merchant agent module in the agent server;

20 b) said respective modules cryptographically communicating with each other via an online merchant interface supervised by an online merchant, a cleaner interface supervised by a cleaner, and a merchant agent interface supervised by a merchant agent, wherein said respective interfaces are correspondingly coupled to said
25 respective modules through a network, wherein an

online shopper interface administered by an online
shopper is linked to the network;

- 5 c) said merchant agent interface providing a click-
 through link from a first website supervised by
 the merchant agent module to a second website
 supervised by the online merchant module;
- d) said online merchant dispatching to the cleaner
 one or more apparels ordered on the second website
 for the apparel purchasing and cleaning by the
10 online shopper, in accordance with an order
 information on the online merchant interface
 linked to the second website; and
- e) said cleaner pressing the apparels dispatched from
 the online merchant and dispatching the pressed
15 apparels to the online shopper by either the
 cleaner's delivery or the online shopper's pickup.

20. The method of claim 19, wherein the second website
includes a selectable apparel list, a selectable cleaner
20 list, and a payment determiner.

21. The method of claim 20, wherein the payment
determiner cryptographically determines a credit card
payment.

22. The method of claim 19, further comprising, between the step c) and the step d), the steps of:

a) enabling said shopper to choose one or more apparels for purchase and selecting a cleaner for pressing the chosen apparels, respectively from the second website; and

b) enabling said shopper to make an online payment for the chosen apparels and for the apparels cleaning at the selected cleaner, respectively from the second website.

23. The method of claim 19, further comprising, after the step e), a step of said apparel cleaner receiving a cleaner charge from the shopper.

24. The method of claim 19, further comprising, after the step e), the steps of:

a) said cleaner sending to the online merchant a confirmation of the pressed apparel receipt by the online shopper;

b) said online merchant crediting a cleaning charge to an account of the cleaner; and

c) said online merchant crediting a commission to an account of the agent upon the confirmation receipt.

25. The method of claim 19, wherein the step d)
comprises substeps of:

- a) washing the apparels from the online merchant;
- b) drying the washed apparels; and
- 5 c) ironing the dried apparels.

26. The method of claim 25, further comprising a step of
bagging the ironed apparels either on hanger or in box.

10 27. The method of claim 19, wherein the network is a
wide area network.
